

# Environmental Stewardship Policy

**“We will proudly benefit the environment in all we do.”**

.....

We are committed to operating with the highest level of environmental stewardship. The nature of our business is inherently green. By professionally cleaning and reusing garments and other textile products, we help minimize the environmental impact of our customers' businesses.

This commitment is ultimately the responsibility of every employee. We demonstrate our commitment to environmental stewardship by conserving natural resources, continually improving our environmental performance, collaborating with our customers and suppliers to identify opportunities for improved environmental practices, and maintaining collaborative working relationships with federal, state and local regulatory agencies.

Management at all levels is responsible to uphold this commitment, by providing the leadership, resources, equipment, time and training necessary for employees to achieve our commitment to environmental stewardship.

All our environmental efforts are conducted with the highest integrity, and in compliance with the spirit and letter of all applicable laws and regulations.

We're doing our part to help ensure the Earth's natural resources are available for future generations.

*Delivering Uniform Service Excellence.®*
